PROFILE

Actuarial Science graduate with a concentration in data analytics, currently focusing on AI Automation. Demonstrated leader with strong leadership skills and a history of accomplishments. Effective communicator in both Indonesian and English, equipped with a solid skillset in management and creative sectors.

EDUCATION

Hasanuddin University <i>Bachelor of Actuarial Science GPA 3.51/4.00</i> - Scholarships: BSI Scholarship Prestasi (2022), BSI Scholarship Talenta (2024) - Domain Knowledge: Insurance, Investment, Supply Chain, Sharia Economic, Risk Management	Aug 2021 – Feb 2026
--	---------------------

EXPERIENCE

Bank Indonesia South Sulawesi <i>Intern, Data and Statistics Function of Economics and Finance</i> - Developed a streamlining tool using Fuzzy Matching with Levenshtein Distance algorithm to accelerate monthly Data Entry of 5,000+ entries from 52 different spreadsheets with time efficiency up to 75% (from 2 hours to 30 minutes). - Participated in an internal project to develop a Farmer Planting Calendar dashboard. Performed Data Analysis, Forecasting, and Data Visualization in Power BI to provide optimal planting period recommendations for farmers. - Managed monthly food price and balance sheet updates across multiple web portals.	Apr 2025 – Aug 2025 <i>Makassar, ID</i>
---	--

PROJECTS

Intelligent Coffee Shop Automation NextJS, n8n - Built a full-stack operational system integrated with AI Agents to streamline coffee shop management, delivering a Business Intelligence dashboard to support owner decision-making. - Designed an Intelligent Stock feature that automatically deducts raw material inventory upon every transaction, tracks menu availability in real-time, and provides early warnings for low stock levels. - Implemented a taste-profile algorithm seamlessly integrated into the cashier screen to deliver smart product upselling recommendations.	May 2026
Pension Fund Calculator Python, Streamlit - Built a Pension Fund Calculator using the Streamlit framework. Useful for calculating participant premiums, featuring simulation parameters adjustable to user conditions. - Implemented Entry Age Normal, Attained Age Normal, and Projected Unit Credit formulas into a digital platform for transparent and accessible calculations. - Accessible at danapensiun.streamlit.app.	Oct 2025 – Jan 2026
Inflation and CPI Analysis Google Sheets, Looker Studio - Processed short-term dataset samples of the Consumer Price Index (CPI) from BPS. Created Pivot Tables to identify patterns and developed comprehensive visualizations using Looker Studio. - Accessible through Looker Studio.	Oct 2025
Food Security Prediction System Python, Streamlit - Collaborated on building a Machine Learning based Food Security Prediction System using the Streamlit framework. - Performed Predictive Modeling on 5 variables from the National Food Agency's Food Security Atlas, covering 127 points in the Sulampua region. Model achieved an R² score of 0.801 and RMSE of 0.887. - Accessible at foodsecurityforecasting.streamlit.app.	Jul 2025 – Sep 2025
Farmer Planting Calendar Python, Power BI - Collaborated on building a Farmer Planting Calendar dashboard for shallots, rice, and red chili across 24 Regencies/Cities in South Sulawesi. - Conducted Forecasting using the SARIMA method on 3 parameters based on monthly historical data. - Built a Power BI dashboard as the final output.	Jul 2025
Smart Highland Agriculture Python, Looker Studio - Collaborated on an Artificial Intelligence based Highland Agriculture Parameter dashboard and identified business opportunities through predictive analysis. - Managed Data Pipelines and performed Hyperparameter Tuning to optimize model performance across various environmental parameters. - Accessible through Looker Studio for the dashboard and Google Colab for the development process.	May 2024 – Jun 2024

ORGANIZATIONS

President <i>Softball-Baseball Student Activity Unit, Hasanuddin University</i>	Jan 2024 – Dec 2024 <i>Makassar, ID</i>
- Coordinated 24 daily board members and 52 junior members in executing organizational activities. - Built bonding and instilled a competitive spirit in members, leading to 1st Place achievements for both Men's and Women's teams at the 2024 Airlangga National Championship.	
Coordinator of Academic and Student Affairs <i>Mathematics Student Club, Hasanuddin University</i>	Nov 2023 – Jun 2024 <i>Makassar, ID</i>
- Coordinated 15 daily board members to provide academic assistance for 120 junior members. - Maintained student integrity within the association to ensure members complete their studies on time.	

ACTIVITIES

CBP Rupiah Ambassador <i>Bank Indonesia South Sulawesi</i>	Jun 2025 – May 2026 <i>Makassar, ID</i>
- Participated as part of the provincial delegation in the national Sovereign Rupiah Festival in Jakarta, conducting observational studies at the Bank Indonesia Museum to analyze the currency's historical journey. - Facilitated regional educational roadshows alongside the Public Relations Unit for the Central Bank Insight Class across Luwu Raya, while spearheading creative digital content creation for event documentation. - Selected as a representative delegate for the Sharia Economics and Finance Content Creator Training of Trainers (ToT) in Pontianak to master digital communication strategies for public literacy.	
Steering Committee <i>Celebes Slowpitch Series</i>	Jul 2025 – Sep 2025 <i>Makassar, ID</i>
- Served as an advisor for the first Slowpitch Softball event in Sulawesi. - Responsible for mitigating issues and assisting in the development of operational workflows.	
Project Lead <i>Battle of Champions</i>	Apr 2025 – Jul 2025 <i>Makassar, ID</i>
- Coordinated collective team synergy to ensure every member contributed actively and in alignment. - Responsible for operational management, resource allocation, and constraint mitigation to ensure event success.	

CERTIFICATIONS

Data Analyst <i>National Professional Certification Agency (BNSP)</i>	Oct 2024 <i>Makassar, ID</i>
Startup Campus <i>Bootcamp bt Startup Campus</i>	Feb 2024 – Jun 2024 <i>Online</i>
- Mastered comprehensive Data Science workflows using Python in Google Colab and implemented Machine Learning algorithms via Scikit-learn. - Learned Business Analysis, Feature Engineering, and Data Preprocessing to generate Actionable Insights for strategic decision-making. - Proficient in Data Visualization using Looker Studio to produce concise and interactive reports.	

SKILLS

Languages: Bahasa, English (EF SET C2 Proficient)
Tools: Looker Studio, Power BI, Tableau, Canva, Figma
Other Expertise: Public Speaking, Video Editing, Content Design, Copywriting
